

Illinois Municipal Electric Agency

The Illinois Municipal Electric Agency is a not-for-profit unit of local government comprised of 31 municipal electric systems all across Illinois. Since its creation more than 20 years ago, the focus of the agency has been on the reliable delivery of bulk power and energy to its members at low and stable prices.

"I have worked with Fritsch on commercial building projects, both large and small. I was especially pleased to have them as part of our team for the IMEA project. I knew I could rely on the experience, professionalism and craftsmanship they bring to every job. Fritsch always goes above and beyond in meeting schedule deadlines and in paying attention to detail. I know I can trust Fritsch to do a great job every time."

Project Summary

The Illinois Municipal Electric Agency (IMEA) built their new headquarters in Springfield, Illinois during 2007. Fritsch was the painting subcontractor on the building, completing painting on ceilings, walls, and floors as well as providing transparent finishes to wood trim.

About Fritsch

Fritsch has a reputation for keeping project schedules, showing up when expected with adequately sized and well-trained crews. We protect surfaces with dropcloths and/or polyethylene film and provide scaffold and/or manlifts to access high, difficult areas.
